

TO THE JOURNALISTS AND WRITERS OF MEXICO:

We, writers from around the world, stand with you and all Mexican citizens who are calling out for the killing, the impunity, the intimidation to stop.

These violations diminish us all and threaten the right of Mexican citizens to live lives both safe and free from censorship.

You have an absolute right to life and a guaranteed right to practice your profession free from fear.

We call on your government to apprehend and prosecute all who have silenced your colleagues and seek to silence you. This is its obligation - to respect and to protect citizens and their rights.

We honor your courage and demand this in the name of our common humanity.
